## *profile*

I bring several years of experience in restaurant hospitality, combined with qualifications in full-stack web development, with an emphasis on backend technologies. My background includes adept multitasking, inventory management, and staff training within the culinary field. Alongside this I am adept at implementing both front-end and back-end coding. My expertise extends to designing user interactions on websites and databases, emphasizing usability and functionality. With a solid foundation in data-driven applications, I adeptly troubleshoot and communicate with diverse teams, upholding a steadfast dedication to customer service.
